ARGENT

WE DELIVER
CREATIVE
SOLUTIONS

WHAT WE DO

Opie Manufacturing Group provides world-class metal solutions and locally made turnkey products to Australian Industry.

We service the Australian manufacturing community by providing practical design, utilisation of state-of-the-art processing equipment and industry 4.0 principles.

We specialise in contract manufacturing to integrate our product into defense, transport, and infrastructure sectors.

We partner and support the contract lead, offering:

Manufacturing of metal components, semi-finished and finished goods

- Sheet metal
- Sections (RHIS, CHS, Channel and Angle)

Design and Manufacture of OPIE Brands

- **ARGENT** SCEC B Class and C Class server racks.T4 approved
- **BOSCOTEK** Workshop Benches and High Density Storage Solutions
- **SMC Stainless** Industrial Drainage and Commercial Washroom, Architectural Bathroom Products

Core Capability

- Design and prototype development
- 2D and 3D sheet metal processing utilising laser cutting, punching and folding
- Fabrication and Welding - Robotic Laser, Handheld Laser, Resistance, GMAW and GTAW
- Full assembly, wiring and testing
- Verification and Validation - FAI, Part ID and Traceability
- Metal Finishing
- Powder Coating

Discriminators

- In-house engineering and design support to optimise performance in lean manufacturing and assembly
- Design and fabrication of secure enclosures and storage units
- Approved manufacturer of SCEC (T4) enclosures
- **Australia's largest robotic laser welding cell**
- NATA-approved weld results via robotic laser welding system
- Fully integrated manufacturing environment: CRM, CIM, MES
- 8000m² facility of unrivaled automated sheet metal

"Our investment in technology promises a quality and cost effective solution for your next project"

Tristan Opie -
Managing Director

Strategic

- Providing Welding consultancy and management services
- Currently implementing AS/NZS/ISO 3834
